## DIALOGUE WITH OUR ANGEL N°36

### **Learn to look well beyond appearances & “Service to Self – Service to Others”**

Here we are at the beginning of this new promising year in numerous new developments. Sand and I are more and more amazed in front of the immensity revealed by our Higher Self. Every day, like children at school, our everyday life is transformed into a school of Mysteries ! Every anecdote, may it be commonplace, becomes a teaching, a new opportunity to learn and participate to open our spirit.

The information passed on by our Superior Consciousness becomes more and more rich, precise and complete. So that when we perceive it, this one strengthens and intensifies. And the more this one extends, the more we become capable of working in this new reality. That brought us to release us from our restrictive schemas and especially, allowed to reveal the deceits of the matrix of 3<sup>rd</sup> density **by learning to always look well beyond appearances.**

From now on the objective of our current work is to be able to completely rely on our new reality which is the one leading to the 4<sup>th</sup> density, in other words that of the 5<sup>th</sup> and 6<sup>th</sup> dimension of consciousness.

**The Ascension towards a superior consciousness consists of an enormous internal work, on karma, multidimensionality, Knowledge, beliefs, behaviour, emotions etc. The physical Ascension will depend only on the outcome of this internal work and will lead us to a new level of reality in adequacy with the consciousness acquired during this progress.**

What we are going to share in this new dialogue challenged our understanding. Yet, what the Angel revealed us is of a merciless logic. Nevertheless, in view of the wealth of information contained in this dialogue, it was difficult for us to stick to only one storyline because during the process of writing this text, "the Angel" added new information.

It demonstrates well that a consciousness of 5<sup>th</sup>/6<sup>th</sup> density does not work like a human consciousness anymore. Our consciousness, not obeying the linear functioning anymore, gathers all-out information which, when we put down in down on paper, risk sometimes to be disturbing for our close friends, acquaintances and maybe for some readers.

Obviously, the Angel revealing us the finely manichean game of the corpus of predation, warned us that we would be accused by a lot of people under the pretence that "we are still in the duality, in the spiritual ego and not in the love like it should be". These people can only reject the revelations altogether, but it doesn't matter... **we cannot deny anymore that for us, is now on AN OBVIOUS FACT !**

We know with unwavering faith and conviction that the way towards the Ascension is opened to more and more humans. Nevertheless, before this collective Ascension occurs and in last appeal, some extraordinary and prodigious events are planned by the consortium of the Shadow. They will be staged to disguise the final plan which consists in preparing humanity to live the biggest "false flag" since its creation. It is only later that the real physical Ascension of humanity will occur.

To be able to rule the next world of 3<sup>rd</sup> density, the predators of 4<sup>th</sup> density are going to implement everything they can to capture the maximum of Souls among those who slowly begin to emerge from their long sleep. This devilish plan is already on the way. One just has to read the news to realize it.

Some extraordinary facts begin to be revealed, hidden information is being unveiled little by little to the general public. **But still it is necessary to perceive what takes place beyond these changes and beyond these numerous revelations !**

**These extraordinary pieces of information suddenly revealed to the public, are they true ? What is the meaning behind all this ? Who does it benefit ? One can wonder what our dear hyperdimensional predators have in store for in the future ...**

The world, when these hideous truths come to light, does not stop stirring, floundering, gesturing and protesting. More and more people see themselves being painfully pulled from their lethargy and get submerged by consternation and dismay by noticing the pathetic state of their planet. They are then outraged to discover within our society, the uncountable ramifications of corruption. Whereas they come down in the streets to express their anger or their confusion, they are finally caught in the infernal circle of hatred, vengeance and violence, without realizing that by their behaviour, they are only diving back, at the risk of sinking, in the devilish cycle of the matrix of 3<sup>rd</sup> density !

We invite the reader to read Frédéric Ahond's very relevant article on this matter: « The monster is not hidden at the bottom of the lake : It is in each one of us »

<https://bienvenussurlanouvelleterre.jimdo.com/r%C3%A9sonances/les-partages-de-fr%C3%A9d%C3%A9ric-ahond/le-monstre-n-est-pas-tapi/>

We know full well that by limiting ourselves to wanting to change appearances, only appearances will change ! Is not what happened during the demonstrations against the construction of the Sivens dam ? The dam will probably be built later and elsewhere !

But all the protagonists of this power struggle : The industrial cartel, the instigators of the project and the protesters completely ignorant of the manipulation of the 4<sup>th</sup> density predators, are in a masterful way taken in the net of these instances with new collective karmic woes to the key, for the greatest satisfaction of these predators.

Only while observing this kind of situation through a superior consciousness, it is possible to distinguish how the plan of the "Prince of Machiavelli" deploys in the unconscious of Men with the aid of their ignorance.

For the predators of 4<sup>th</sup> density, this kind of exercise - the dam of Sivens or the attack of Charlie Hebdo - represents only an appetizer, a small repetition to observe the behaviour of the human being and adjust their plan before the big final trap closes on humanity, who will be unconscious of what will take place.

However, in the population as in our circle of acquaintances, because they acquire more and more lucidity, some people can perceive the demonic plan of predation. This plan is monstrous because it aims more particularly at the individuals who really began a process of Awakening.

By browsing numerous pages of spiritual or esoteric sites, we noticed that most of the New Age authors, philosophers, spiritual guides practically never express themselves about the plan of predation, and even less about its incidence on the human psyche. It seems, more often than not, that they avoid this subject deliberately.

We thus asked ourselves the question: **Where does our determination to describe and denounce predation with so much zeal come from ?**

The current philosophy of the New Age is to cry out that the only Way to liberation is the one of love, unification, sharing... In theory it is perfectly true !

But from what shall we be released from ? And it is here that it is important to discover the famous trap !

Through our everyday life and our personal experiences, we made “nice” discoveries that we are simply going to illustrate by a small fiction.

Let us suppose that an individual who appears as a spiritual guide, philosopher or therapist expresses himself during a conference by saying : "Let us be brothers, the only Way is the one of love, tolerance, peace. Let us meditate together and join hands in peace, enjoyment, brotherhood and bla bla ".

Let us imagine that all of a sudden, the Being who expresses himself by preaching these fine words loses suddenly its capacity of psychic camouflage and its human disguise, coming to light such as he really is. What would happen then ?

Every individual within this assembly would realize that for quite a while, not only his capacity of discernment was completely blurred, but that the Being who expressed himself through the body of this individual was a remarkable predator of 4<sup>th</sup> density.

It is what Sand and I manage to feel and sometimes even to see through one's energy, when we meet this kind of person. Stéphane Cardinaux details exactly this phenomenon.

<http://newsoftomorrow.org/arts/geobiologie/ste-phane-cardinaux-synthese-geometries-sac-rees-tome-1-2004>

We are sometimes bewildered to be able to distinguish so clearly the energy and the physical aspect of these predatory entities - through the pineal - which others do not perceive at all or sometimes only under the influence of psychotropics.

Here is an article and a video on this matter :

[www.mondenouveau.fr/index.php?Option=com\\_content\\*task=view\\*id=222](http://www.mondenouveau.fr/index.php?Option=com_content*task=view*id=222)

[www.youtube.com/watch?V=wEYdSL8ANUE](http://www.youtube.com/watch?V=wEYdSL8ANUE)

We also made the link with the intrigue of the movie : "Invasion Los Angeles", where the main actor finds sunglasses which allow to see the world such as it really is, namely governed by aliens having taken the shape of human beings.

These entities, being invisible to most people, sometimes enjoy defying us when they feel spotted by substituting themselves to the personality of the individual whom they "possess", and make him mean, haughty, arrogant, contemptuous, proud... They can act so because they know that according to the codes of our galactic family of Souls, we are bound by the respect for the agreement concerning the free will and commitment of non-intervention of the Planners toward human beings.

Therefore, these entities laugh at us and at this obligation to respect the integrity of Man, who represents only a source of energetic food for them.

Nevertheless, every Being of 4<sup>th</sup> density, predator or planner, is subjected to this Universal Law which governs the balance of forces of the Universe. Most predators of 4<sup>th</sup> density respect these agreements, but a rather important number, avid to appropriate and control physical bodies and Souls for the next terrestrial cycle, despises them disparagingly.

By using their psychic capacity of camouflage and by-passing the codes of the Planners of superior densities, they oversee, control, watch researchers of Truth slightest gathering, especially during groupings organized during solstices, equinoxes, collective meditations, etc.

When we sometimes discuss with a group of individuals who " share their spiritual research", we notice rather regularly somebody who tries to avoid us or who downright leave. If he cannot do it, he places himself in profile to protect himself from our energetic field. And there for us, he comes to light. When this individual goes away from some meters, we often succeed to detect in his aura, the predator of 4<sup>th</sup> density who occupies him. This is the way we reveal the kind of predators who hide themselves behind the personality of some individuals.

**This is the reason why we put so much zeal to analyse the systems of transdimensional predation. They influence the psyche, the etherical bodies and often even the physical body without their host's knowledge.**

In another register, we noticed this phenomenon of denial of predation - which sometimes takes the shape of the lie by omission - by observing for example, the collectives who discuss about UFOS or individuals who claim to have physically been contacted by Beings from outer space.

Have you already noticed that these people, when they testify openly of their experiences in their conferences or interviews are generally recognized, respected, sometimes even worshipped in New Age circles, while they are often denigrated and even despised by ufologists ? Have you already questioned yourselves on this matter ?

It is enough to notice that most of the testimonies of contacted listed by ufologists very rarely relate spiritual experiences. On the other hand, New Age contacted always associate a contact with entities coming from other densities with a spiritual experience. Is not it curious ?

We spent many hours viewing interviews of authors who relate their contacts with the galactic federation, with Asthar, explaining the metaphysics of the Universe, the functioning of UFOS,

in brief revealing incredible quantities of details, information on the Venusians, the Pleiadeans, the future of humankind, etc.

Some even benefited from a free touristic journey across the Universe and claim to have visited other planets or other galactic peoples, etc. They always wander around with impunity, without being worried by secret services or by scientists of the secret consortium. This while today, honest people looking for truth, trying to deliver information important for the fate of humanity are infiltrated, attacked and marginalized, according to the usual procedures of the secret consortium or are discreetly and systematically eliminated from the surface of the planet. Isn't strange ?

We thus deducted that the individuals who study or receive "channelized" messages, are manipulated so that some way or another, the really important information which could be passed on to the public, is disguised or simply ruled out.

This information broadcasted by these individuals, has no real interest for the rise of human consciousness, except inciting to continue dreaming of a better future.

To our knowledge and in the hypothesis that they embarked physically for a space flight, never any of them testified that aliens expressed any concern about their karma. It is nevertheless essential to have extricated oneself from it to reach vibrations of high resonance. That could allow the individual to bear the infinitely superior vibratory frequencies of Beings of 5<sup>th</sup> and 6<sup>th</sup> density. But to be welcomed with the density of a physical body, dressed in shirt and pants in a vessel resulting from etherical densities, **that is non-physical**, can only be pure whim.

It quite simply means that these individuals, for the greater part completely honest, have been invited on vessels of the secret consortium of the type TR3A, or taken by entities of the Grey type of 4<sup>th</sup> density in physical vessels, as for example the one on the photo below :

Here is the link which represents a vessel of the type TR3A piloted by Greys :  
[www.youtube.com/watch?v=suBp3ai-xG8](http://www.youtube.com/watch?v=suBp3ai-xG8)

We thus admitted that these individuals - artists of disinformation - who hold the answers to all the mysteries of the Universe, the UFOS, the alien populations (who as if by chance are all friendly), are only "agents" of the New Age consortium - completely unconscious of the psychic manipulation of which they are victims.

Sand and I understood that these renowned numerous "channels" or these so-called "guests" welcomed in flying saucers (in France or abroad), are sincere and honest individuals who believe to work for the awakening of humanity. They are apparently unaware of the deception

and manipulation toward a very precise purpose by these Beings of predation coming from the 4th density.

It is obviously logical that the authors who claim to have been taken in vessels, approach only very rarely the subject of predation, because these humanoid aliens seem generally so friendly and benevolent.

We begin only thus to measure the relevance of the revelations of the Angel who in this dialogue will warn us of a current **UNCHANGING UNIVERSAL RULE** within the Real Confederacy of Galactic Planners and Free Worlds.

He will reveal that **BEINGS WHO REALLY SERVE THE OBJECTIVE OF THE RISE OF A CIVILIZATION, NEVER INTERFERE WITH THE FREE WILL OF THIS ONE AND ARE NEVER AUTHORIZED TO PRESENT THEIR IDENTITY, NOR THEIR VESSELS TO HUMAN BEINGS EVOLVING IN 3RD DENSITY.**

**The message is thus clear and cannot be subject to interpretation.**

We know that the military coordination of the secret consortium of the whole world are interested in UFOs, aliens and other creatures from outer space and this to a very high level. A multitude of testimonies of former penitent scientists of the military consortium proves it.

Thus, if in the circles of the contacted, there really was important information to discover, these "contacted" or "channelers" would not be left in nature free to spread their information. It is consequently obvious that their revelations have no value in the eyes of secret services and servicemen of the consortium. And if it has no importance for them, it is that they do not put in danger the plans of the New World Order. On the contrary, would they not be serving them ?

Every individual who claims to have gone visit other planets – and this whatever he thinks of it – has been invited by entities of Grey type on a vessel of steel and bolt. And the information amassed in his psyche is thus in reality only psychic images inserted in his memory either by the high technology of the secret consortium, or by the Miminus, the Reptilians, Mantidaes or other more or less well-intentioned entities.... (According to the Angel).

We can then suspect that these contacts with aliens are only staged by predatory entities of 4<sup>th</sup> density. It is certain as well that **almost all the contacted and the "channels" stars of the New Age**, even the honest ones, are fooled and ignorant of the manipulation of which they are victims. They have no knowledge of the high technology of the consortium. See for example these articles about the existence of this technology.

<http://www.morpheus.fr/spip.php?article266>

<http://rustyjames.canalblog.com/archives/2013/01/28/26268214.html>

Good thing that some people sometimes realize it like Kathryn E. May, who, annoyed and feeling deceived, decides to stop broadcasting the messages which are passed on to her.

<http://changersa.blogspot.fr/2014/10/kathryn-e-may-fait-la-greve-des.html>

It is thus important to understand (according to the Angel) that all this noise set up for **the "Big Event" is only a smoke screen intended to**

**hide the real alien reality : That of multidimensional predators who again, get ready to lock the emergent humanity into a new matrix of 3<sup>rd</sup> density.**

Charles Baudelaire in "The Spleen of Paris (Small Poems in prose - 1862)" wrote :

***"My dear brothers, never forget, when you will hear the praise of progress of the Enlightenment, that the most beautiful guile of the Devil is to convince you that he does not exist!"***

It implies that almost all the documentation that it is possible to find on the multiple New Age websites, are only corrupt information, carefully calibrated and adjusted by our gaolers of 4<sup>th</sup> density. These, willing to renew their contract of predation with humanity, use their own "channels" and too often gullible agents to spread **their false good news.**

It is enough to visit certain blogs and surf on social networks to notice that people are completely lost, flooded in a profusion of New Age beliefs, all of them more absurd than the others, generating endless confusions in the psyche of people. It is even difficult to admit that these individuals do not realize the nonsense and ineptitudes that they put on circulation on these networks.

A large part of humanity is called to pass in 4<sup>th</sup> density of existence and another small part of it, in 5<sup>th</sup> and 6<sup>th</sup> density. It is important to remind again and again that predatory races populate the 4<sup>th</sup> density and work in our 3<sup>rd</sup> density by manipulating our human psyches.

What is the stake in this power struggle ? Why so much energy spread to prevent the Ascension of humanity ?

Because something terrible, formidable is about to occur for the consortium of the World Order and the predation which thrones in 4<sup>th</sup> density. It is the global Ascension of a part of humanity in 4<sup>th</sup> density, exactly where throne these transdimensional predators !

And the signs prove it !

The Pope at the head of the unified religions and soon the future presidents for the New World Order (N.W.O), do not they get ready for the dress rehearsal of a big Event ?

And what is this event ?

They will have the honour to welcome the "reptilian" staff, under the shape of Asthar or his "fellow man" and the whole staff of so-called galactic rescuers. It will be at this moment that the biggest false flag of all times will be revealed to Man.

And to legitimize their allegiance and according to the new Tables of the Law of the Georgia Guidestone, the human delegation of the N.W.O. will have the task to turn the 500 000 000 fallen Souls of the New Humanity in (represented essentially by those of the New Age), with the hope to reign over the new human cycle of 3<sup>rd</sup> density, at the side of the predatory great lords.

Let us return briefly to the Ascension. By observing all this noise around the Ascension of humanity, it is necessary to realize that something is going on. It is thus logical to believe that if the subject of the Ascension is so popular, it is that this event is the most important matter that the elite of the New World Order tries at all costs to prevent. Why would they make so many efforts to prevent the process of Ascension if this one did not thwart the plans of the predators of 4<sup>th</sup> density ?

What seems to give evidence of it, is that the major part of the New Age movement is formed of a therapists' armada of all kinds, gurus-programmers who model the ground and prepare the public to attend the final bouquet : "The landing in the middle of the islands of lights" of vessels of the secret consortium under the false banner of a so-called galactic federation.

These "channelers", gurus, spiritual guides, as the example which we have just described, are the ones who provide with beliefs these New Age groups, spreading dogma and false truths, on which depends the conclusion of the right of use on the future humanity.

*"They are the ones who in our world, organize New Age circles, New Age seminaries, New Age workshops, New Age methods or techniques of Ascension, by trying to reach occult or allegedly spiritual goals" (Laura Knight).*

Appearances are sometimes misleading, not to say most of the time tremendously misleading.

**"Only the one who looks through the eyes of the Soul is capable of seeing !"**

We keep on repeating it ... The Machiavellian plan of control of the world by predatory entities of 4<sup>th</sup> density progresses like a cancer, hypocritically, insidiously, dully, but surely behind this smoke screen !

Here are for example three articles which are part of this perfect over-mediatised and masterfully organized subterfuge of the predation of 4<sup>th</sup> density :

<http://changera.blogspot.ca/2014/12/fulford-des-tetes-de-la-cabale-tombent.html>

<http://changera.blogspot.fr/2014/12/fulford-la-cabale-proche-de-la.html?spref=fb>

<http://stopmensonges.com/les-7-bombes-qui-feront-tomber-la-cabale-et-leur-nouvel-ordre-mondial-satanique/>

If the human actors of this cabal are falling one after the other, it's because somebody cut the threads of these puppets ! Then let's dare ask us the question : Who is holding the scissors ? What surprising outcome do we have to expect when this smoke screen will be dissipated ? What does it hide beyond this gigantic trickery ? Are the predators of 4<sup>th</sup> density in a way or another waiting for us ?

Even if appearances tend to prove the opposite, the bait is put. As these plans will unveil themselves to humanity in all its magnificence, it will be definitively too late. **The trap**

**tightened by the predation of 4<sup>th</sup> density will close on humans for a new cycle in the matrix ! Nevertheless, it will not be for lack of having been warned ...**

*"The frenzies on the theme of the return of the "benefactors of humanity" are only a vast swindle into which numerous desperate people will doubtlessly throw themselves in. That's the objective ! It's the great classic which works marvellously and which the false gods Annunakis or the "angels" of Yahve have used in the past." Anton Parks*  
[http://www.antonparks.com/main.php?page=inter\\_grandsmysteres](http://www.antonparks.com/main.php?page=inter_grandsmysteres)

It is imperative to keep looking for real information and develop our discernment not to offer our energy to the utopia, to the lies or to the disinformation anymore.

As underlines it Anther Michaël in its last article of December 21<sup>st</sup>, 2014 :

*"The world of 3<sup>rd</sup> density is going to become a battlefield of the Forces of the Shadow, who are going to fight with the last energy for their survival, before their total extinction. This battle of the Forces of the Shadow against the Light is happening first and foremost inside each of us, before being projected in the form of hologram in the outside world".*  
<http://consciencequantique.com/2014/12/22/le-grand-changement-de-conscience-le-saut-dans-monde-quantique-2/>

We add that it is essential to carry out our "work" of karmic liberation **up to the transdimensional plans**, not to project our "past" in the new world that we are creating. And that's the problem, many are those who think that the past is past and that there is no reason to dwell on it. They did not simply realize that this past holds their own karma, which when it is rejected, hinders the progress of the Soul in their life of today.

Sand and I have been living in this beautiful region of the Aude for more than three years (8 years for Jenaël). Rich in vestiges which crossed the ages, this region carries even today the aftereffects of the multidimensional history of the human being.

Throughout our dialogues, we many times mentioned that we have access to akashic records of this region through our own memories. We have been able to recognize the high valley of the Aude as being one of the cradles of the European homo-sapiens humanity. This one was designed mainly by the Dracos predators, Gina'Abul, Anunnaki and others, who are today in 4<sup>th</sup> density. And it is the same humanity who, among others, was given the genetics "Kiristos" by the Kadistu priestesses.

Curiously since the 2000s, the same valley concentrates the most important New Age population listed in France. This community consists of people arriving from all Europe. Even if most of these people understood that their emigration in the Pyrenees was no coincidence,

that they returned to the places of previous incarnations, only a few realized the real reason of their presence here, near these mountains.

This is so that among them, many are entangled in administrative conflicts with the neighbourhood, with close friends ... Many are also subject to depression, anxiety, made a stay in psychiatry, others even committed suicide or died following serious illnesses ... There is no coincidence !

When some individuals are violently put back in touch with their karmic memories, it can sometimes be very painful to take in and to assume. **And obviously, as long as the karmic past which binds them to the region is swept under the carpet, there is no possible cure.**

Today, the transdimensional predators, from their 4<sup>th</sup> density, delight in the lack of love and confusion which rages on in the community of these "brothers and sisters" deceived by the fancies of the false light. These people are simply manipulated and flattered by their own illusion. By "conjugating desperately their efforts with drum beats or with talking sticks", they keep pursuing the utopian idea of a better world strewn with islands of light, instead of taking awareness of their behaviour to be able to save their Soul.

This community always refuses to admit that the New Earth - "the celestial kingdom" as Yeshua said -, is not from this "World".

They do not believe in the imminent possibility of the extinction - in a form or another - of the current humanity like it already occurred repeatedly in past ages. It is even possible to find objective evidences in our valleys of Aude because there are still vestiges and "vibrating artefacts" of former human and humanoids civilizations, under the layers of forest humus.

We insert below the link of a video which we realized on the artefacts of the region.

<https://bienvenussurlanouvelleterre.jimdo.com/nos-films/les-origines-multidimensionnelles-de-l-humain/>

Because of its erroneous beliefs and its ignorance, this New Age population attracted by this transdimensional vibration, remains inexorably held in the "matrix" of the region. It is still used as a pantry for the predators of 4<sup>th</sup> density. Once again, there is no coincidence ...

**The New Earth will be born in the superior dimensions of consciousness and of density.** The New Age community will have access to it only when all the karmic games of this collective group will be revealed and resolved and especially when the so-called spiritual guides will be unmasked and ousted! Unfortunately, among this community, only a few are already capable of understanding the stakes in the dimensional change.

Now let us begin gradually to reach the topic of the "Service to Self" and the "Service to Others".

**The "Service to Self" and the "Service to Others" represent two modes of behaviour which are diametrically opposed to one another, defining the stage of Evolution of a galactic people or an individual belonging to this population.**

It implies that within the same galactic or terrestrial people, there are individuals with a more or less strong orientation for either the "Service to Self", or the "Service to Others". This is the case for example among the human population.

It also means that when a population, a group of person or even an individual succeeds in moving towards a behaviour mainly in the "Service to Others", they will then be prepared to achieve the process of Ascension in the physical worlds of superior consciousness.

Before wanting to understand how the "Service to Self" and the "Service to Others" expresses itself in our humanity, we are going to evoke first of all on the multidimensional plan to define it and then examine its consequences within the human society.

To illustrate how Beings coming from a superior density can materialize in our everyday life during a short lapse of time (seemingly) and meet us incognito, we propose you again two stories from the personal experience of Jenaël. Maybe some among you will realize in comparing our experiences with theirs, that they have already lived similar situations.

The 1<sup>st</sup> history takes place in summer 2007. *(Original names were replaced by fictional ones.)*

## The ironing pad

"With Elise, my partner of the time, I used to go shopping in the supermarket of the neighbourhood. One day, two girls were panhandling at the entrance. The oldest seemed to be 16 years old at most and the youngest, 10. We were going to cross the door of the store when the oldest reached out to us :

- "Excuse me, do you go shopping ? " she asked us with a foreign accent.

- "Yes of course miss "I answered her expecting her to ask for a coin.

She continued :

- "Would you be kind enough to buy me a package of washing powder ?"

Surprised by this curious request, I answered :

- "Yes of course we can do it. What kind of washing do you wish for ?"

- "I would like the washing powder from the brand Etole. It is natural and antiallergenic. I can only use this one because my husband is allergic to the other washing brands."

"She seems very young to be married !" I thought.

- "No problem, we are going to find you that" I answered.

- "Do you know the brand Etole ?" I asked Elise.

She neither had never heard about this brand. Once in the washing sector, we looked at all the display and we couldn't find this brand. We even inquired with the receptionist of the store, without success.

As we got out of the supermarket, the two beggars came to meet us with a wide smile.

- "Sorry, we didn't find the brand of washing Etole, it does not exist in this store" I said to both girls.

- "I suspected it, it doesn't matter" retorted the oldest, always with the same smile.

My goodness, she suspected it ! She makes us run in all the store and she tells us that it doesn't matter ! She is cheeky that one !" I said to myself.

Elise struck up the conversation with these two curious people who undoubtedly, remained very smiling for beggars.

- "We regularly come shopping at this store. We nevertheless never crossed you before ! Where are you from ?" She asked them.

- "We have been living in the district for a few months already, but life is very hard because we have no money. My husband had a working accident and will stay in a wheelchair for a few months. Thus, he cannot work anymore" she answered with a very pronounced accent from an East- European country.

- "Do you not perceive any compensation to live ?" I questioned her.

- "Unfortunately, no. We are Bosnian refugees. We have no money and my husband's boss has badly made papers for work" she answered then, with approximate French.

I was going to ask them for their name, when the smallest opened the mouth to outstrip me :

- "My name is Luna and I am 11 years old and my older sister is called Stella, she is 19 years old. (It's their real name). We live together and we must help uncle to get down the stairs.

- "Oh really ? Why do you say that ?" I questioned Luna. But Stella spoke to answer us.

- "We live in the third floor of a small building without elevator, the exits of my husband depend on the goodwill of our neighbours to help him go down the stairs".

"They seem to have embarked themselves on one bad adventure !" I thought as I felt my eyes moister and my throat tighten. I had abruptly an idea which I submitted to Stella.  
- "Do you need an ironing pad ?" I asked her. "I don't use mine anymore, I can bring it to you the next time we shall see each other again."

- "It's a good idea !" She answered, expressing her enjoyment by smiling even more. "I will be able to iron the pants of my husband again !" She added.

- "We have to return here tomorrow at the end of morning, if you are in front of the store, I shall bring it to you !" I answered quite happy to be able to be of service to these two girls who on the whole, were very kind and smiling despite the sufferings they had to endure.

We left by exchanging two kisses and by letting us go to big brotherly embraces.

- "Goodbye and see you tomorrow !" I said while we were heading to our car.

The next day Elise and I were on time at the meeting, but Luna and Stella were not here. We waited for almost three quarters of an hour, but nobody showed up. We returned the next days, but they were still nowhere to be seen.

By asking the reception of the store, we were told that nobody noticed them. Moreover, begging being forbidden at the entrance of the store, they would necessarily have been spotted. This information which had just been passed on to us left us with a curious feeling, we even had shivers. Questioned by these surprising circumstances, for several days in a row we had browsed the supermarkets of the district, without ever finding any tracks of Luna and Stella.

Two months later, during the first time I ever attended a session of channelling, the woman channelled Beings coming from other densities. At the end of the session, she turned to me and told me this :

- "I have to deliver you a message sir ! I absolutely don't understand the sense, but I must repeat you a sentence. Maybe it will have a meaning for you ? Here it is :

We thank you very much for your generosity, but where we are today, we do not need an ironing pad !"

### **"Boots in the snow"**

This other history happened in the middle of winter. Elise, her daughter Laura and I had agreed to go to the Saint-Michel chapel, near Saint Jean Saverne's in the northern part of the Vosges. This site of a height of a little more than 400 meters is accessible from a forest road made of stones and logs, which winds through the forest. It had snowed several days in a row and a crust of ice had formed atop the sixty centimetres of powdery snow which recovered the forest. Thus, the access to the chapel was very precarious and testing. Good thing we three were all well equipped to climb the 500 meters which brought us to the summit.

Once arrived, there was not living soul. Obviously, with the quantity of snow on the ground and the ice-cold blizzard which blew there, the walkers of Sunday were not out. Thus, we

didn't continue and quickly turned back by the same staircase which had led us there. We had hardly left the site, that far off in the blizzard and the snow stood out a black silhouette. We three were all surprised by this strange vision. About fifty meters below, an apparently very old lady, dressed in very dark clothes, was planted in the snow in the middle of pine trees.

*"I must be dreaming ! She is completely unconscious this grandma !" I thought, while we were moving closer to the silhouette.*

An apparently old lady was stuck there, snow up to her knees, a few meters away from the staircase. She was dressed in a long coat and a matching hat. A small silk scarf surrounded her neck but curious details, she carried a pair of sunglasses of a very modern and coloured style and city bootees with heel.

- "My goodness, I did not expect to see somebody here today !" I told her as I was reaching her height. "But how did you arrive this far ? You are not dressed to go hiking in the mountain !" Aren't you cold, so little covered ? And how do you manage to walk in this snow with your small bootees with heels ?"

- "Oh, I am used to hikes in the mountains ! Do not worry for me" she answered me.

- "Do you want me to lend you a stick to come down by the staircase ?" I asked her then.

- "No, no, I will be fine like that. I shall walk slowly to come down" retorted the lady immediately.

Something in me, told me : *"There is something fishy ... Something is not logical in this situation."* However, I was incapable to see it.

- "If you prefer, I can propose you my arm ? We are also going to come down again slowly" I proposed her once again, by noticing her small hesitating steps.

- "Ah like that I am willing !" She answered whereas I began to perceive her small game. She hung on to me to my left hand without being prayed.

- "When even, don't you find that getting down slowly and accompanied is much more reassuring for you in this snow ?" I retorted her.

We were here, all three fastened to in the others, going carefully down the slippery steps of this forest path. Elise hung on my right hand, worried about her young daughter who was venturing away alone in the snow, shouting at her to make her come back with us.

- "You know at 8 years old, children are already autonomous. If you really trust her, nothing will happen to her" said the small grandma to my partner in a reassuring albeit almost authoritarian tone.

*"Goodness ! It's the same words that I repeat to Elise when her daughter goes sometimes a little too far away from her ", I thought.*

I had just located the footprints that Elise, Laura and I had left one hour previously, when the grandma called out to me to tell me her short story.

- "I have the impression that you doubt me ! I am used to walking in the snow and at 88 years old I still go hiking in the mountain. Alone, nothing never happened to me. The only accident which I had to regret in my walker's life arose one year ago, by walking with a group of hikers. I broke my ankle at the level of the external malleolus. Moreover, I must remove my plates in titanium tomorrow morning."

Again, I had the clear impression that something was wrong with her story. By observing her from the corner of the eye, I realized that the face hidden behind those ultra-modern sunglasses, let appear no wrinkles. She looked very young for her age. However, because she had just told it me, I noticed that she limped slightly, which diverted my suspicions towards her.

- "In which hospital will you go to have your plates removed ?" I asked her then, more and more curious about the mystery which surrounded her.

- "I have to go at the hospital of Strasbourg in the operating block n°2 of the service of orthopaedics tomorrow."

- "Goodness ! I was an instrumentalist in operating blocks for 20 years and I worked in this block for more than 5 years !" I exclaimed.

She continued without flinching :

- "They operated me with the equipment AA, which is of very good quality !

- "How do you know the brand of the material which they implanted you ?" I asked her, taken aback by all this information she had and curious to know a little more about her.

- "The surgeon clearly explained it to me" she retorted me, proud to remember all these details." You know him maybe ; his name is Pierre Vincent ?" She continued.

- "Obviously, I worked a long time with him. We operated fractures of the nose together" I answered to her.

We soon arrived at the road which followed the cemetery of the village. I tried discreetly to see again her face, but it was well hidden under her hat in fur, her scarf and her sunglasses of a psychedelic red which changed colour with the light.

- "Do you want us to take you back at your home ? Moreover, where do you live ?" I asked her.

- "The first house in front of the cemetery but I don't want you to take me back, I shall return alone. You made enough for today" she answered me of a resolute tone.

Elise, Laura and I thus greeted this charming grandma, then we walked towards our parked car about twenty meters up to the cemetery. The time to undress us of our parkas, to board the car and to turn back, two other vehicles had exceeded us carefully. We were thus in the third position in the line. By arriving at the level of the wall of the cemetery, I saw far off "our grandma" who walked not in the direction of her home as she had assured it, but went again alone in the snow, towards the village.

- "What a scamp ! I knew that there was something fishy ! She's been pulling our leg !" I exclaimed to Elise.

One after the other, the two cars which preceded us, had just doubled her. When we were going to reach her height, she made us a small sign of the hand without even turning around !

- "How was she able to guess that it was our car which was going to pass at this moment ? She has eyes behind the head or what ?!" I exclaimed to my two passengers.

While she walked very slowly along the cemetery, I tried to spot her in my rear-view mirror. But much to my surprise, she did not appear in it !

Dumbfounded, I forgot the ice and stopped the car to turn around and verify personally. We three were all completely bewildered, startled ! She had disappeared, volatilized, unless she was able to jump the two meters wall of the cemetery !????

The cemetery wall

At this moment, I was seized by enormous shivers. I understood that we have just lived a strange and enigmatic situation, and that this grandma had nothing human. The veil had just fallen, and I had just come to my senses.

Very quickly I spotted the anomalies in the story of our meeting and perceived the total incoherence of her words, which my completely blurred spirit could not see when she was hung on my arm.

- She was planted in the spotless snow. No footprint was visible around her, as if it had been put down by helicopter. In the chapel and by getting down the path, only our footprints, worth knowing those of Elise, Laura and mine were visible in the snow.
- Every time I noticed the strangeness of the situation, she diverted me from my reflections by changing conversation.
- How did she know Laura's exact age who appeared much older than her 8 years ?
- Why did she natter me with her stories of operation of the ankle and the plates ?
- Pierre Vincent was a surgeon with who I worked, he practiced in maxillofacial but certainly not in orthopaedics !
- The brand AA made only chromed-steel material and not titanium.
- Furthermore, she claimed to have been operated with a plate in titanium, which would be logical considering her age. This kind of inert plate once implanted, stays definitively on the fracture to avoid the ablation. Thus, this material is specially designed not to be removed anymore in order to avoid the second operation and the new anaesthesia for the elderly. Thus, she had no reason for being re-operated !
- And logically, if she was operated the next day in orthopaedics, she should have been admitted the day before to respect the fast before the operation !

*"How could she be so informed and juggle with the contradictions well enough to make me go nuts ? It was maybe simply the purpose !"* I said to myself.

My spirit had been disconnected repeatedly from reality and logic.

Elise and Laura, despite the fact that they witnessed just like me this adventure, were not conscious of the incoherence of the situation. But what had really happened at this moment ?

"They" are thus capable of it everywhere, at any time, without anybody noticing. I made myself the reflection ...

I had certainly just lived a kind of psychic abduction or was propelled in a parallel reality and that, under the nose of my relatives. My spirit had really been blurred by a continuation of thoughts and psychic images that this grandma had sent us, and which completely annulled any capacity of logical reasoning.

By rewriting my history to adapt it to the present dialogue, I realized that contrary to other people or other authors who had "physical" contacts with Beings from outer space, never during my meetings with them, they delivered me a teaching at the time of the contact. They rather blurred my reason to cross my road incognito.

**I then questioned the Angel about my mysterious experiences :**  
**Can you give me more information concerning these meetings ? Who were they in reality ?**

Things are not always what we think of them ! As I often tell it to you, it is very easy to deceive an individual of a consciousness of 3<sup>rd</sup> density. In your personal stories, the characters you met were not completely human as you would believe it. In reality, they were only copies, worth knowing temporary biological entities invested with an intelligence of 5<sup>th</sup> and 6<sup>th</sup> density in "Service to Others".

These three Beings who lived temporarily in these duplicates of human bodies, are guides of your family of Souls who you already know on other temporal lines. For a short moment, they densified their etherical body to be able to meet you. But at this moment, they didn't have the right to pass anything on to you, or to reveal who they were. You will understand why in a few moments.

One of them - the grandmother - was your childhood friend who after her death stayed some time in the astral of 5<sup>th</sup> density, then joined the corpus "Service to Others" in 5/6<sup>th</sup> density. Did you not recognize her glasses ?

During her phases of comas in palliative care, she had all the time to realize multiple exits outside her body and to observe you while you worked in the operating block. She had consequently all the practical information to play her small trick on you !

*(After the Angel delivered me this information, I literally collapsed in tears because, I had forgotten that this friend sometimes wore this kind of glasses when she was young.)*

\* \* \*

In the dialogue n°34, the Angel spoke to us of Beings coming from 5<sup>th</sup> and 6<sup>th</sup> density who can create Worlds, whereas others belonging to the predatory lineage of 4<sup>th</sup> density are incapable of it. Some among them are even rather inclined to destroy them.

The Source thus "engendered" Beings capable of creating Universes, "the Planners of life" and others capable of destroying them, "the Predators".

Since we planned to develop the subject of the predatory peoples and the planners of 4<sup>th</sup> density, some readers of our site directed us to new tracks of investigations. We were able to recut our information with those of other "investigators" in the service of the Great Mystery of Creation.

It is thus necessary to question us and to dare seriously explore the real nature of these entities posted in the superior densities !

By convention for the continuation of our papers, we shall use the following abbreviations :

**STS : Service of Self - for the predatory lineages**

**STO : Service to Others - for the redeeming lineages or the planners**

By using abbreviations "STS" and "STO", the readers can certainly understand more easily and bring together our dialogues and Laura Knight's work (*not to confuse with Judy Zebra Knight who channels Ramtha, an entity who would have appeared in her kitchen*).

This author, through the quality of her researches and her Cassiopeans transmissions, distances herself very clearly from the trend "hypnotic New Age's slumber", especially as she is supported by her husband Arkadiusz Jadczyk, mathematician in quantum physics.

We recognize in this author a real researcher of the truth of the lineage "STO" and we take this occasion to commend her work and her impressive commitment.

**While showing discernment**, we invite the readers in real quest of Knowledge to dive without moderation in her books to be able to recut it with the researches of other authors.

Below a link of M. Richard's edifying article on her :

Up to now, we have like Laura Knight, always spoken about two galactic groups in our dialogues, who, one way or another, influence our humanity. We named them the redeeming lineages or the planners, very different from the predatory lineages.

These are designated by Laura Knight's work by the lineages of Souls in the "Service to Self-STS" and to the "Service to Others – STO".

Anton Parks describes them as being the two main human lineages who were reshaped by either the Kingu, or the Kadistu. It seems useful to insist on the fact that these two lineages exist within our current humanity, but their genetics is hidden in the human genome since its genesis. **Consequently, there still are two lineages of homo – sapiens today.**

The first one, elaborated by the Kingu, represents Adam (homo - sapiens) who possess, even nowadays, the most important genetic capital of orientation in "Service to Self - STS" in their DNA.

From time immemorial, this descent is administered since the 4<sup>th</sup> density, where throne the "Gods An (Yahve / Jehovah) and Enlil flanked by their henchmen Anunnaki".

They govern our World of 3<sup>rd</sup> density through the "occult corpus" which heads the various groups of puppets of the Illuminati cabal. (The "occult corpus" is the famous hand which handles the scissors !)

- The other human lineage reshaped by the Kadistu, to whom was implanted the "Kiristos" produced the Kiristi or the ardent sons / daughters of life. This lineage corresponds today to the individuals with the highest potential in "Service to Others, STO".

This second line now corresponds to the descendants of the Enki line (which is a 7<sup>th</sup> density creator). Having reactivated their DNA, the descendants of Enki work in collaboration with the 5<sup>th</sup> and 6<sup>th</sup> density Planners within humanity for its redemption.

They represent the "indomitable fugitives of the Matrix" singled out as the ugly duckling by those who have not yet realized that they are still comfortably asleep.

Here's a link to an article by J.-G. Vésone, magnificently illustrating the reality of these two lineages : "How to find one's "mission" and get out of amnesia ?"

<https://bienvenussurlanouvelleterre.jimdo.com/r%C3%A9sonances/les-mails-de-j-g-v%C3%A9sone/comment-trouver-sa-mission-et/>

Since the genesis of these two lineages and with a few exceptions (like the royal lines of blue blood of the Illuminati) **the genetic capital of these two lineages has intimately mixed with the thread of reincarnations.** As a result, in this "end of times", even the "Adams" descendants of the Kingu "STS" lineage have almost the same potential as the "STO" to realize their Awakening and choose the path of the Ascension to a higher plane of consciousness.

Before pursuing the questions to the Angel, we are going to specify this :

**It is essential for the reader to understand that the way of evolution to the 4<sup>th</sup> density includes exactly these two axes : "STS" or "STO" but the progress towards the 5<sup>th</sup> and 6<sup>th</sup> density is only directed towards the "Service to Others – STO".**

"STS" or "STO" defines the way of evolution that each of us - as a spirit embodied in a human body - must choose so that our Soul can experience it in its cycle of evolution to come. Because the Soul is the electromagnetic entity which builds the programs of embodiment through the experiences of our lives past, present and future, according to the choices of the individual.

It is therefore a question of understanding the issue of this transition and the many pitfalls that still present themselves to us in the last jolts of our current 3<sup>rd</sup> density matrix, in order to be able **to choose one of the two paths :**

### **"Service of Self - STS" or "Service of Others - STO".**

Note that these two paths "STS" and "STO", represent the two opposite polarities that we will locate for example on a scale of 0 to 100 at both extremes. Between these two extremes all possibilities for the soul's journey are defined according to the choice of the individual and his capacity to assimilate the life lessons that his Higher Self proposes him.

Humanity is globally situated on this scale very close to the centre and to the balance (around 48 - 49 %), but because of the not-yet-resolved transdimensional karmic process, it is still under the influence of the programs of "Service to Self- STS".

There are among this slice (from 0 to 49) individuals and "STS" entities (the Kingu lineage) who work tirelessly so that humanity doesn't reach beyond the 50 % and stay imprisoned in the "Service to Self- STS". Whereas other individuals and entities in the "Service to Others - STO" (the Kadistu lineage situated in the slice of 50 to 100) accompany individuals who in their heart turn towards the "Service to Others - STO".

### **Question to the Angel :**

**Why do most people who claim to have been physically approached by beings from other densities have been lucky enough to be "aware of what was happening during their contact, whereas for me (Jenaël) they have used their psychic ability to blur my reason ?**

There is indeed a very important reason for this. It is necessary to remain vigilant as soon as an individual speaks of physical contact with beings or other entities from other worlds.

Unlike the beings of the "Self to Self - STS" who don't care about universal laws, **beings in the "Service to Others - STO", when they contact for some reason an individual located in 3<sup>rd</sup> density NEVER INTERFERE WITH THE FREE WILL OF THE CONTACTED. THIS IS AN IMMUTABLE RULE INVOLVING ALL "STO" ENTITIES FROM THE FREE WORLDS.**

**Beings in the "Service to Self - STS" contact people in a way these can be persuaded to have been chosen as spiritual teacher or "galactic messenger".**

Furthermore, if entities appear to an individual in the form of Beings of Light, it is because he is "connected Beings of Light". If Jesus or the Virgin Mary makes their appearance in somebody's living room, it is because this person believes in the myth "Jesus-Mary-Joseph". By using archetypal delusions, these entities in the "Service to Self- STS" give themselves all the freedom to bias the galactic laws which stipulate the non-intervention in human evolution.

Sometimes, in order to make it more realistic, some contacted "STS" have sometimes even the privilege to chat around a coffee with entities who reveal them their name. In this kind of case, the entities in the "Service to Self- STS" completely exceeded the law of non-intervention in the free will of the individual.

The entities in the "Service to Self - STS" that is the predators of 4<sup>th</sup> density, don't have the right to contact a human being in the "Service to Others - STO" of 3<sup>rd</sup> density. On the other hand, they are completely authorized to contact human beings in the "Service to Self-STS" - like the predators of the government or the New Age gurus-teachers – As they belong to the same lineage, they do not break the cosmic laws. They respect the contracts of Soul which bind them with their human descendants of the lineage "STS".

*(During the correction of this dialogue, we have again had access to new information which explain how the entities "STS" and "STO" evolve in the matter and antimatter determining the present - past – future.*

*With his explanations, the Angel demonstrated us in an irrefutable way that any physical contact with a vessel of matter results systematically from a contact "STS". Not to weigh down this dialogue, we shall talk about it again soon.)*

### **Question to the Angel :**

**Why the entities in the "Service to Self- STS" don't respect the galactic laws of non-intervention in the evolution of the species ? How can they evolve on other plans of consciousness ?**

Remember that the plans of existences of 4<sup>th</sup> density include both sorts of consciousnesses : Predatory and redeeming. That is the predatory lineage "STS" and the planner "STO", altogether mix and tolerate each other. However, wars also take place in their 4<sup>th</sup> density.

The entities in the "Service to Self- STS" being cut by from reliance with the universal Higher Self, aren't conscious of the role of superior densities (just like most of humans). Due to their predatory function, they cannot pass directly in the "Service to Others - STO" of 5<sup>th</sup> or 6<sup>th</sup>

density. (Anton Parks also specifies it by asserting that the predators Dracos, Gina'Abul, Greys are limited to the 4<sup>th</sup> density of existence).

These entities have a knowledge limited to the worlds of 4<sup>th</sup> density. Because of their predatory functioning on the lower densities (1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> density) and those of the astral, they can only imagine sitting at the top of Evolution. Nevertheless, some among them realized that certain galactic peoples have an emotional as well as a capacity to create their World. And just like many human beings, they perceived the imminence of the end of cycle and a possibility of redemption for their own evolution.

Therefore, their Higher Self "STS" willing to begin a new cycle of evolution to experience creation, causes just like with humans, a spark of Awakening of consciousness. **In order to pass in orientation "STO", these Beings of predatory origin have a single possible route : That to pass by a human cycle of 3<sup>rd</sup> density.**

From the moment the Higher Self of a predatory entity "STS" (reptilian, Dracos or other) longs to pass in the "Service to Others - STO" **to become a Creator, its Soul has to cross at first a complete cycle of human embodiments to learn to develop all the aspects of the human emotional (executioner-victim-saviour)**, because you already know that it is the emotional which allows to put the creative Energy in movement.

Consequently, by virtue of the rule of **cause with effect**, the Soul of this predator, when it begins its karmic process in 3<sup>rd</sup> density, is going to be brought to experiment the **effects** of its own predation stemming from memories-programs of 4<sup>th</sup> density. **That's we call the transdimensional "karma".**

The "native" Soul of a predator of 4<sup>th</sup> density is thus going to begin its cycle of human embodiment with a behaviour of predator "STS" and will have to learn throughout its experiences of life and reincarnations, to aim towards a behaviour "STO".

When this Soul is embodied in a human cycle, it is going to begin generally at the bottom of the scale by generating a new embryo of Soul. In the esoteric literature, this kind of embryonic Soul from the predation of 4<sup>th</sup> density, is collectively qualified as "organic portal, entity without Soul or without humanity". (Humans who possess such an embryo of Soul are still completely turned towards the "Service to Self - STS".)

These embryos of Soul of reptilian origin begin then their experiments in 3<sup>rd</sup> density by generating through their humanity extreme behaviour and will be satanic, criminal, perverts, paedophile, narcissistic, torturer, psychopaths, megalomaniacs... (However, a lot of these individuals remain blocked at this level of consciousness and will stop evolving. It is for example the case of certain incurable psychopath or organic portals.)

*(To give you an idea of what represents an organic portal to this level of human development, the movie "A Walk Among the Tombstones" (2014) illustrates very well this kind of behaviour.)*

By beginning a human program, they will often begin to be embodied in roles of

hierarchical leaders, masters, magistrates, presidents, controllers, persons in charge (no matter the domain in which they exercise), but they are going to be of very proud, selfish, arrogant... They are beings divested of any compassion. Then in the course of human reincarnations, they will begin to dilute their karma with this kind of role. It is for this reason, that it is possible to meet also people with high responsibilities (directors, leaders, magistrates) of a pleasant character, tuned to their staff. It is people who will have begun their progress towards a behaviour "STO".

**Given that the human being inherited from the reptilian genetic heritage, he possesses intrinsically a behaviour "STS", connected to the reptilian brain which always detains programs inherited from the 4<sup>th</sup> density of predation. (see Dialogue n°29)**

Gradually during its evolution through its human extension, this Soul "STS" is going to accumulate human karma, by which he is going to be able to release himself little by little from its transdimensional karma of predator. These memories-programs coming from the 4<sup>th</sup> density of predation, are then going to express themselves through the reptilian brain of Man by the resistance of the ego, generating the famous five wounds of the Soul (rejection - abandonment - humiliation - treason – injustice).

These are due to the fall of the Soul in the worlds of 3<sup>rd</sup> density and lead in reply a behaviour which is inevitably "STS", under the shape of the need for recognition. That is the unconscious need to be recognized by our circle of acquaintances in our progress in "Service to Others".

This kind of person is then going to try to turn to actions of small and large scale. During several embodiments, they will generally try to build big projects, with always in the background, **pecuniary interests or seizures of power, often skilfully disguised as projects of humanitarian or community interests.** (See for example the movie "Arbitrage").

Because they only think of themselves, the well-being of others does not matter to them. They are unscrupulous, manipulate people around them cheerfully and do not possess a consciousness developed enough, to behave otherwise yet, that is "really humanely".

Some individuals with a strong "STS" motivation are going to put on also for example roles of religious leaders, gurus, spiritual teachers in the unique purpose to keep serving the "STS" corpus. They are Beings who, again, look for recognition among the people around them. Moreover, some among these "STS" predators, even possess talents which are no other than sorts of "magic powers" inherited from their "operator/controller" of 4<sup>th</sup> density. Their masked arrogance - by using their "magic powers" to the service of a cause - authorize them sometimes even to claim themselves to be benefactors of humankind. (I shall specify it afterward.)

It is because these gurus or "STS" teachers are the ideal agents between the consortium of the shadow and the New Age's followers, that it is essential to underline the greedy and interested motivations of some of these not very honourable gurus-therapists.

However, the great majority of therapists, because they are quite simply still "novices on the progress STO", let themselves being caught up by behaviours to the "Service to Self - STS" by monetizing their therapies.

Not having yet finished disentangling their unconscious transdimensional karmic weft, and in spite of their good intentions, they use their practice to answer their own need to be cured of the fear of lacking, of the desire of gratitude, of the need for valuation, for seizure of power on others, for the feeling of superiority, etc....

Simply because they are still not really connected to their new Higher Self "STO" of 5<sup>th</sup>6<sup>th</sup> density.

It is thus rather easy to recognize the therapists in the "Service to Self" and to differentiate them from the therapists who are really walking towards the "Service to Others". Simply by observing the way this person is remunerated. (Do they propose a fix price, or do they propose tariff freedom to their customers at the risk of not being paid ?)

According to the awareness's of his/her human host, the "STS" Soul on a progress "STO", is going to be brought to play the victim's role. The individual will be confronted very painfully with any sorts of problems in his relations (for example problems of rejection, conflict in the couple, at work, as well as any sorts of conflicts with the "outside environment".).

Then, approaching the karmic outcome of embodiments of "Service to Self- STS", the person will put on then the rescuer - redeemer's role through a vocation like that of fireman, doctor, nurse and other medical bodies then finally of voluntary and free therapist. Even if by acting that way he's still stays in the "Service to Self", his behaviour turns resolutely towards a "Service to Others - STO".

It is only after having experimented and realised absolutely all one's programs and behaviours connected to the transdimensional karma, that the Soul can reach worlds of superior consciousness.

**The human embodiment really represents thus a transdimensional springboard for the galactic entities, called to evolve and to change plans of consciousness and therefore, plan of density.**

### Question to the Angel :

**For what reasons are people allowing themselves to be so easily manipulated by the lies of the New Age consortium ? Would there be a relationship with the future orientation of their Soul "STS" or "STO" after their physical transition or their death ?**

Have you already noticed that human beings only very rarely raise the question of what happen after death and completely avoid speaking about it ? Even reincarnation remains for the greater part a riddle. Then how do you want them to understand what really takes place after death since in their lifetime, they were only rejecting their fears and neglecting their karmic process ?

Having never learnt in their lifetime the existence of two possibilities of progress of Soul on other plans, how do you want that the deceased, when they find themselves in the non-physical plans of the astral, choose between the path of the "Service to Self- STS" or that of the "Service to Others - STO" and have a chance to get out of the process of reincarnation ?

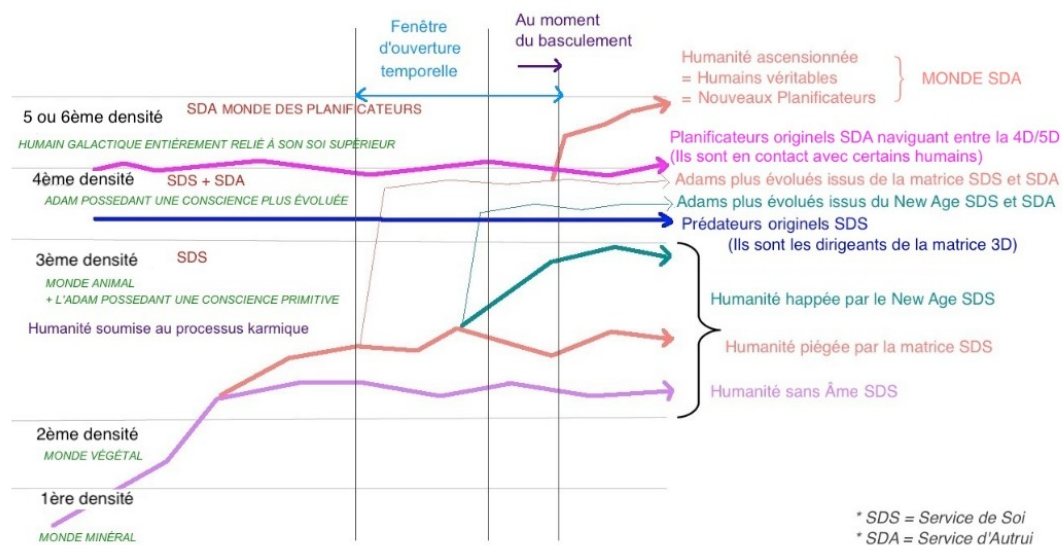

After their death, human beings keep the same psyche, the same way of thinking, the same beliefs as at the time of their death. So when during their embodiment in the "Service to Self-STS", they didn't make the effort to wonder how to release themselves from their beliefs and karma to understand how to pass in a path in the "Service to Others - STO", **they will then continue to repeat perpetually their behaviour "STS" and will pursue their cycle of life and death "STS" until they understand.** They are encouraged in it by the predatory entities of 4<sup>th</sup> density, who have an interest in the fact that the ignorant deceased returns in the matrix to continue to feed on their energy.

The individuals who during their last life agreed to study their karma by observing their everyday life, will have no more reason for falling ill or dying because they will be freed from the influence of the "malefic" destructive forces of 4<sup>th</sup> density. Each of them will thus have the possibility with in the long term to consciously leave their body or take it with them on other dimensional plans during the change of terrestrial polarity. It will depend on the level of consciousness reached at this moment.

The one who will take his body will be propelled on the superior plans by a phenomenon of depolarization of his Soul and his physicality. According to his Consciousness and the intensity of his reliance with his Higher Self, he will find himself either in the 4<sup>th</sup> density "STS" or the 5<sup>th</sup> or 6<sup>th</sup> density "STO".

### POSSIBILITÉS D'ÉVOLUTION DE L'ÂME HUMAINE APRÈS LA TRANSITION

Ce schéma n'est valable que vu au travers de la lorgnette de 3ème densité.  
 Mais vu au travers de la 6ème densité, toutes les densités inférieures se confondent en une seule réalité.

This diagram is valid only seen through the limited vision of 3<sup>rd</sup> density. However, when seen through the 6<sup>th</sup> density, all lower densities merge into one reality.

There has always been human beings who, having carried out their initiations "STO", managed to realize their own Ascension in a physical body. Obviously, those who returned in this end of cycle and who could testify of it, would not be taken seriously.

### Question to the Angel :

**How can we differentiate the orientation "Service to Self - STS" from the "Service to Others - STO" and how can it be transposed into human behaviour ?**

**First of all, know that Man, due to his embodiment in a physical world of duality, has automatically and intrinsically a tendency towards "Service to Self". It cannot be otherwise because he is systematically a predator to forms of life situated in 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> density.**

**However, the process of embodiment in a human cycle is the COMPULSORY INITIATION which must allow a Soul "STS" to begin its progress in orientation "STO".**

**Thus, it is important by acquainting yourselves with information which is delivered, not to judge you and not to enter in reaction if you perceive yourselves in such or such behaviour in your current life, because necessarily, it is going to be the case.**

**The most important is to become aware of your attitude in the "Service to Self - STS", then thanks to the tools which are offered to you through this information, to adapt your behaviour to allow your Soul to arrive at a certain behavioural balance and to succeed in undertaking a real progress in the "Service to Others - STO" who awaits you.**

Let's recall once again that the superior plans of 4<sup>th</sup> density include simultaneously predatory and redeeming consciousnesses. That is in 4<sup>th</sup> density of existence, the predatory lineage "STS" and the planner "STO" altogether mix and are obliged to tolerate themselves. But wars also take place in these superior densities.

However, between both "STS" and "STO" polarities, there is a whole range of behaviour which depend on the density and the dimension of existence in which the Soul experiments. Namely, the percentage "STS / STO" differs from an entity to another, from a galactic race to another, from a Being to another, from a human being to another ... And this, according to its lineage of origin and the progress which the Soul has already achieved.

- You already know thus that the "STS" have a behaviour of predation on all forms of life, whereas the "STO" are mainly "at the service" and respect the same forms of life.

- The entity "STS" of 4<sup>th</sup> density have the possibility of manipulating human beings exactly in the same way as these one do it with pets and cattle.

They set up for that purpose an invisible prison, **an electromagnetic wire which is no other than the famous magnetic railing in the shape of a flower of life englobing the Earth and which the deceived human beings identify with sacred geometry.** (*I shall speak about it a bit more precisely in a next dialogue.*)

- The entities native of the caste of the "Service to Self - STS" have every interest in maintaining their human livestock under their cup. To this end, they use their capacity to travel in "the timeless etheric" to penetrate the subconscious of an individual by manipulating his perception of reality. (This subject will also be treated in depth in a next dialogue.)

- The entities "STS" of 4<sup>th</sup> density possess the capacity to penetrate into group consciousnesses to destabilize the psyche of the weakest and the most unstable individuals, with the aim of destroying the cohesion of the group. It often happens in collectives of "work of spiritual Awakening".

- (*According to Anton Parks: For these aliens and their refractory small groups, the only way to find energy is to divide the groups or celestial families as during a hunt; later, they hunt the*

*weakest or distant elements from those groups. At least, the dissident brotherhoods go hunting for these aliens. This method sends us back to that what we evoked at the beginning of your interview : It demonstrates us that terrestrial religions have no other objective that to divide the herd to dominate it better. When we keep in mind that the invisible can be as vicious and as hypocrite as our 3D world, then the risks to be trapped decrease largely. That is why it is important to work well in 3D, because the more we fall in terrestrial traps, the more we shall have of chance to repeat the same pattern outside the terrestrial sphere.)*

[http://www.antonparks.com/main.php?page=inter\\_grandsmysteres](http://www.antonparks.com/main.php?page=inter_grandsmysteres)

This hyperdimensional predators "STS" of 4<sup>th</sup> density know thus how to control easily their human agents by telepathy without their, or the group's knowledge. So that these "agents" under influence of their operator / controller of 4<sup>th</sup> density, succeed generally in penetrating into the psyche of other individuals, in order to influence them or even dominate them.

Sometimes, some hyperdimensional predators pass on a spiritual or intellectual knowledge through the egotistical channel of a "puppet" who was skilfully chosen. They can invade completely the consciousness of persons present during a meeting, during a conference, during a channelling and consequently, corrupt completely their capacities of discernment.

These individuals then piloted by a consciousness "STS", enjoy a total contempt for the sorrow or the suffering of others. They possess even the capacity to feign an altruistic behaviour to push those who suffer to choose their company.

The entities "STS" of 4<sup>th</sup> density also know that to enslave a victim advantageously and in the long term, they must get the consent of this one. That is, that through his free will, this person accepts his subjection.

Is it not for example the case for the gurus and their followers? Contrary to the "STS", Beings in the "Service to Others - STO" possess an ethics which absolutely forbids them to infer this kind of manipulation in the human psyche.

Furthermore, the human beings who reached the vibratory stage "STO" are not targeted anymore by the predators of 4<sup>th</sup> density. Simply because these do not support the vibratory frequency of an individual completely invested by his Higher Self anymore.

The individuals walking towards a consciousness "STO" try simply then to develop and to spread their knowledge by a "work" of spreading the information, by sincerely consenting to give and to receive. They are naturally gifted with altruism and creativity. Their capacity of empathy grants them the faculty to connect to the thoughts of others, to feel their feelings, to understand their experiences and to share those experiences with them.

Therefore, individuals with a tendency "STO" know how to worry about the suffering which feel others and it can in certain cases, cause them a great deal of grief, sadness and even guilt when they notice their powerlessness to help them or comfort them.

- The "STS" does not respect the law of non-intervention, nor the free will of the individual.

While the "STO" has a profound consciousness of it and respect these universal laws come what may. It is exactly this state of mind of non-intervention that characterizes them, and which forbids them, even if extreme cases appear, to act openly within humanity.

- The "STS" entity appears often openly at the contacted. They generally designate themselves by first names or fictitious galactic origins to reassure and flatter the ego of the contacted individual.

Whereas the "STO" always stays incognito to respect the emotional of the individual, his integrity and his own spiritual progress. And if they are brought to intervene to pass on information to individuals of their lineage, they always communicate their teachings by psychic impregnation, through the Higher Self of the individual.

- The spirit "STS" tends to appropriate teaching or to practice the withholding of information to manipulate real Knowledge for purposes of power and domination.

While the spirit "STO" possesses essential values which he shares without limitation. He broadcasts all the information which he possesses and which is necessary for the acquisition of Knowledge.

- The "STS" predators are satisfied and fulfilled by their own Evolution. They concern themselves only with their own survival and their own well-being. They are of proud nature, selfish, cupid and worry by no means about the well-being of others and, they can show cruelty.

While the "STO" regroups any sorts of physical and non-physical Beings devoted to the Evolution of humanity, of any other forms of consciousness on Earth (the Mineral, Vegetal and Animal Reigns) and on other planets, galactic systems, and this to the borders of the Universe.

- "STS" Beings contents themselves with a discipline of auto-contemplation of the ego (contemplation of the little "I"). They are proud of themselves, of their progress and because they are not conscious of their false modesty and the game of their ego, they often make trade of their "spiritual achievements".

Whereas the individual "STO" is simply conscious that his plan of evolution was proposed to him by his superior Consciousness of 5<sup>th</sup> or 6<sup>th</sup> density. He does not boast about his progress of evolution ; however, he shares it gladly with humility. He benefits naturally from a coherence and has an instinctive consciousness of group which corresponds to the links which he maintains with his family of Soul.

Here is a typical example of a channelled text by a follower of the New Age coming from an entity "STS" :

*"Love, it is the recognition of self to self, it is the **non-resistance**, it is this strength of Life which we welcome in full **without wondering if it is good or not, just or false, because love is the certainty** to carry Life in oneself and to be responsible for its radiance and its expansion.*

*Love it is a way of saying to yourself, come in me, open me to me and **let all the steams and intensities of pleasure invade me** totally because it is especially which expresses Life, love, a carrier of integrity without concessions, because it is free and granted to the natural information of our 5 senses.*

*Love it is a state **of one to self for the self**, it is this energy which pushes us to surpassing ourselves permanently because we know that since our arrival on the planet we were diverted from the essential relationship with the self, that we put ourselves in the service of the others by persuading ourselves that love was a reality outside us, while **love is the simple demonstration of Life in agreement with the 5 senses. Love, it is to admit the pleasure in the action of taking.** Love, it is the non-choice, it is the agreement with **the essential vibration which feeds our unique frequency.***

*Love is I love you, **I love you, the "I"** the vehicle carrier in relation, in exchange, in sharing with "YOU" the consciousness, vector of trans-communication between the I and the SELF, energy of the Immanence.*

*Love it is the act of the despair, a desert to be fertilized. I love loving the Love to love where **Love is Reality.**"*

Did you perceived the state of mind of the "Service to Self- STS", the sense of his auto-contemplation and the beliefs which are associated with it ? Did you notice the manipulation of the spirit (in bold words) intended to engender confusion in the reader ?

Let's continue to analyse both concepts "STS / STO", but this time more particularly on the human plan.

Some are satisfied with their comfortable mode " STS " because their Soul is still not experimented enough to claim to change dimension of consciousness. They thus have no reason for questioning themselves. So be it!

While others are literally "knocked down" by their Soul, struggle ardently to go out of the "STS" functioning and the consciousness limited by the matrix to be ready at the time of the definitive Ascension of the Soul in 5<sup>th</sup> or 6<sup>th</sup> density.

**Understand, please, that both extremes are presented here to establish the distinction between the "STS" and "STO" behaviour.**

**The objective is not to judge you, to make you feel guilty or to reject what is written but to be informed and to be brought on to reflexion to be able to adjust your behaviour.**

**The deep nature of the human being is good, affectionate and generous.** Most individuals trapped in the matrix of the New Age are "STS" due to their humanity but are potentially candidate "STO". They thus become targets of choice for the predators "STS".

Certain predatory Lords "STS" embodied under human shape, by using their psychic capacity, their supernatural powers (coming from 4<sup>th</sup> density), their Machiavellian intelligence, their talent as writers and orator... pass themselves off (by mimetism) as kind "STO".

**These mutant human being "STS" have the capacity to modify artificially their vibrations to adopt a different frequency from that of the predation and start resonating with that of a real human being.** They thus go unnoticed for the real candidate individuals "STO". Among these mutants, many people are these famous gurus who dazzle their religious zealots by a falsified light, a falsified love in the only purpose "to shine". They divert their followers of any possibility of karmic redemption.

These followers are thus for the most part candidates "STO". But as they are afraid of facing their karma and as they never went in quest of Knowledge, they do not possess enough discernment to identify the trap in which they fell. Because of their passivity and their resignation, these candidates "STO" fall again inexorably into a behaviour "STS".

Thus a "STO" is never somebody's devotee. **An individual "STO" can feel devotion only for his own Higher Self !** (Not to confuse with the individual "STS" who he, is in the service of his "small self" the "I" of his ego/imp.) **Thus, it's a question of not confusing the "spiritual ego" with the connection to the Higher Self !**

During big celebrations, the individual "STS" always calls on to entities of the shamanic worlds. It's for example the case in religious or masonic ceremonies, in witchcraft, black magic, New Age's rites... that generally attract entities of the astral world or of the 4<sup>th</sup> density "STS".

**Whereas a "STO" is conscious of the omnipresence of the Energy of the Source. He knows that a rite whatever it is, systematically calls on to Forces of the astral or the 4<sup>th</sup> density. The individual "STO" having completely integrated his Higher Self became autonomous. Thus, he does not need to appeal to other energies because he is aware that any rite, protocol or ceremonial ... locks him inexorably into the artifices of the matrix of the "Service to Self", by means of use or by means of the creation of "specialized" egregores.**

Contrary to the "STS", the individual "STO" learnt to connect to the Higher Self. They never channel "Beings of light", of entities "X" or "Y" ... or other. Thus, the teachings which they pass on correspond only to situation scenarios and to convictions inspired by their superior Consciousness that they share through their everyday life.

**An individual "STS", as an individual walking in "STO", can acquire an esoteric knowledge by studying the gnosis, to be informed about multidimensionality and to know quite a lot on the forms of existence in the cosmos. But on no account does an esoteric knowledge raise his vibratory frequency. This one raises itself only through the real Knowledge which was lived, integrated and metabolized through the emotional of the individual.**

It is difficult to explain the sense of good and evil to a human being because in his psyche, bad things too often happen to good people. When an individual possessing a mainly "STO" energy tries to do good, he is automatically rebuffed, reprimanded, criticized by human society because this one, which is "STS", does not support the

vibration of an individual with a strong resonance "STO". (For example, Gandhi, N. Tesla, the Dr Hammer and many others)

But when an individual "STS" realizes something good, he is immediately supported, adulated, glorified, applauded, given an ovation by society, the institutions... and is often invited by foundations such as NGOs, the UNO, the UNESCO...

In order to differentiate an individual "STS" of an individual "STO", it is important to consider the plan of physical and material self-satisfaction. Every human being, from the moment he is embodied in a world of 3<sup>rd</sup> density of duality, is automatically projected in a mode of behaviour "STS".

Because he is dependent on the physical plan through his egotistical functioning, this plan of 3<sup>rd</sup> density is thus supposed to get him a certain form of satisfaction. It exists then mechanically - if I may say, a disproportion between the physical world with which he becomes identified - because of the ego-, and the etherical worlds with which are connected his Higher Self and the multiple dimensions of his Being.

Due to his nature, the human being completely cut off the etherical world is perpetually dependent on physical pleasure and his material needs of 3<sup>rd</sup> density. He is thus fundamentally in front of the dilemma engendered by both polarities of duality, **the good and evil**.

Is it good or bad to give oneself pleasure ? Is it good or bad to look at anything beautiful ? Is it good or bad to steal an apple on display when we starve ? Is it good or bad to notice ugliness or to contemplate beauty ? Is it good or bad to listen to techno ? Is it good or bad to resort to euthanasia ? Is it good or bad to speak about the shadow or the light, about Angels and demons ?... The world of 3<sup>rd</sup> density abounds with dilemma of all kinds.

The environment of the human being was conceived by the Source and the contexts of his life by his Higher Self. He is supposed "to rise spiritually" in his environment by solving his dilemma and by being conscious that these are offered to him by the Source to experiment Life through his free will.

**Then how the human being fundamentally "STS", due to the constitution of his reptilian ego and his continual questioning on good and evil, can become candidate in a World "STO" ?**

The answer is simple! By using the free will and his human intelligence so that at any time, he can learn again to respect the environment which offers him the Consciousness of his Creator. The individual is thus called to become aware of his instinctive control mechanisms which hide themselves behind any shape of physical self-satisfaction and which are inevitably generative of a karmic process.

For that purpose, it is essential to understand the emotional mechanism which on the quantum plan generates the circulation of Energy. And as for any mechanism, there is a key to start it up or to stop it.

**"The desire to possess" represent this famous key !**

- The individual "STS" possesses ! He possesses and amasses all that he can acquire. He possesses his lands, his money, his house, his properties, his cars, his animals, his cattle, his spouse, his titles, his work, etc. "This belongs to me, I am the owner of, I am the master of it, it belongs to me !"

- When he walks among flowers, he cannot resist the desire to pick them, to appropriate them to realize a big bouquet to decorate his house.

- The human being "STS" is permanently confronted with the need to value himself through competitions, rivalries, through exploits, to be adulated, pleased, to shine, to be recognized (for example: Sporting events, in politics, in the entertainment industry, at work). He often feels the need to be recognized by the family, his peers, society. He will accumulate then diplomas, prizes, trophies, titles, ranks, medals...

- The individual "STS" often tends to take his desires for realities, he will thus do everything in his power - through the ego - so that his desires materialize themselves.

- In his functioning "STS", donating does not exist and as he is incapable to trust his Higher Self, he works hard, counts his money, saves it, makes reserves, forecasts, takes out an insurance policy, make savings. Often even he tries to appropriate the property of others. That is why he steals, lies, cheats, watches, ears, spies, then deceive, swindle and becomes jealous, possessive envious, proud...

And if by misfortune, he sees himself obligated to donate, the individual "STS" will automatically look for a compensation in return. I give you this, what do you give me in return ? I give you a treatment, you owe me money or what do you give me in exchange ? He is going to ask thus systematically for a financial compensation in the form of advertisement, of remuneration or sometimes even of an exchange of affective order.

He is incapable to give, to make a real gift without expecting in return because he ignores or forgot the functioning of Energy within the quantum Universe. He also ignores that the flow of universal Energy is omnipresent Abundance because it results from the "prodigality of the Source".

The real Abundance and the real Wealth never result from an intermediary or from an unidirectional way (as for example money which circulates from a person to the other). This "free Energy" because omnipresent, when it is not controlled, managed, nor stored (by the ego's fear of lacking) becomes then a real source of abundance. (The abundance of money can sometimes even arrive by inconceivable ways for the human mind.)

**The individual "STS" is thus involved in a permanent way in a karmic process with his environment because he is conditioned to manage and to control the flow of energy to answer its egotistical needs for physical self-satisfaction.**

It is brought then ceaselessly to violate the free will of his brethren. (For example, by proposing help to somebody who did not ask for it. Without being aware of it, this individual is going to generate an energy of intrusion which is no other than a shape of unconscious energetic predation.)

## Conversely, the individual who realizes himself in the orientation "STO" :

He can enjoy Life without feeling the need to possess. **He is satisfied with what Life offers him !** He feels no need to be an owner, to possess, to amass, to conquer. He does not need to acquire lands, to make reserve of money, to collect cars, to park animals, to get married to possess a wife or a husband. Few things belong to him. He does not feel the need to become master of something, to dominate or to possess others. (It does not mean at all that he goes without anything, but he stopped becoming identified with things by assigning them any value by egotistical resonance.)

When he walks among flowers, the individual "STO" will be content with smelling their perfume, with taking time to admire them. He will not make a big bouquet to decorate his interior.

The human being "STO" does not need to be valued. He is not interested either in the competitions, or in the exploits of others either. He feels no need to be recognized, honoured, rewarded ... He feels no necessity of being gratified with titles, diplomas, prizes, trophies ...

For an individual "STO", the gift is voluntary. He does not need to count his money because the necessities are always given to him. He does not make reserves, never stores in case, does not need "projects for his future", nor to contract multiple insurances and savings to reassure himself. He never tries to appropriate the good of others. He does not need to steal, to lie, to cheat, to watch, to eavesdrop, to spy, to deceive, to swindle ... Thus, he has no reason for becoming jealous, possessive, envious, proud.

If he is brought to donate, he never looks for compensation in return. He contents itself of : "I give you this, put it in good use !"

If he gives a favour, he never asks for compensation, either in money, or return of favour, nor exchange. The individual in orientation "STO", if he still practices as a therapist, learnt to give without expectation in return by realizing a real self-giving, but only to the one who asks for it, because he possesses the necessary discernment to avoid any intervention in the karmic process of others and it, without violating his free will. *(This kind of therapists really exists but they are never well established and if you need it, you will naturally be guided to meet them.)*

**A therapist of motivation "STO" when he will be completely realized in the "Service to Others", will finally stop being a therapist and will not present himself as such anymore. He will have realized that to cure the World of the suffering in which he evolves, he will content himself with curing the multiple facets of his own human and transdimensional karma.**

He will have perfectly integrated that all that he sees, hears and perceives is the projection of his own beliefs and will have admitted that these materialize because of memories / programs (coded in the DNA) which he projects himself in his World. Consequently, he will have accepted that to cure people who live in his World, he will just have to cure his own wounds, his own projections and improve on his own beliefs.

By bringing back to him the pain of the world, by integrating it, crying it, feeling it - sometimes metabolizing it to our guts-, he will have accepted that by transmuting this pain through his own emotional, he will allow the Soul of others to be cured of the suffering, which his host is not capable of seeing or of feeling.

**It is only in this way that a real accomplished therapist, an authentic shaman, an ascensioned master "STO" operates !**

**And it is only in this way that an accomplished "STO" participates in the cure of humanity !**

**Now, do you know why such an individual "STO" is capable of such a state of mind of destitution ?**

**Because he acquired Wisdom through Knowledge by understanding that all his desires are only imaginary beliefs shown by his ego. However, because he learnt in the course of his embodiments to trust his Higher Self, he knows that from now on this one will fill his needs without failing, no matter the circumstances, and this always within the limits of balance, for his greater good.**

The individual "STO" remembers and understood the functioning of Energy within the quantum Universe. He knows that the flow of universal Energy is not unidirectional but omnipresent ! And therefore, he feels neither the need, nor asks to be indemnified by the one to whom he proposed the donation.

He possesses the knowledge of the real Law of Attraction and experiments freedom, abundance, joy and Real Love daily, which are given to him by the omnipresence of the Universal Energy.

**The individual "STO" totally trusts the guidance of his Higher Self. He acquired WISDOM and real discernment. Because for long time ago, he left in search of the Grail - the original Knowledge - which from now on offers him Universal Abundance.**

Humanity is what it is. Progress is progress. **If the human being, in all honesty, could be what he already is, due to his essence and to exist without violating the free will of others in this 3<sup>rd</sup> density, he could really turn and find his true nature which is to be in the "Service to Others - STO".**

But as he is "STS" because of the dimension of consciousness which he builds himself up through his beliefs and his fears, he cannot become totally "STO" here in this world of 3<sup>rd</sup> density.

**Consistently and gradually during his program of embodiment, the human being should learn to get rid of his predatory programs "STS" to lead his Soul towards the experiment " STO".**

So, before being able to claim to make a success of his Ascension on plans of superior consciousness, every individual must be freed from the last relics of his karma and understand how to avoid generating more of it. (By being careful not to intervene in the life of others.)

In his present life, the karmic relics are represented by what he can perceive of his behaviour "STS". **It is the reason why in his last embodiment of the end of cycle, every individual is strongly invited to stretch out at the most towards a behaviour in the "Service to Others - STO".** As Yeshua said, the kingdom of the True Man, that is "STO", is not of this world ! **It belongs to the humans of 5/6<sup>th</sup> density of consciousness.**

**Then to release oneself from any karmic process and at the same time get out of the human behaviour "STS", there is only a single solution :**

### **TRUST COMPLETELY IN THE GUIDANCE OF YOUR HIGHER SELF**

**... not to yield to the temptation to want absolutely to possess everything, to control, to master, to verify anymore, led by your uncountable fears and by becoming aware of the incalculable patterns of guilt which imprison you into the matrix of 3<sup>rd</sup> density.**

The human being who is really freed from his karmic process should reach at least the balance between both behaviour "STS" and "STO" to claim to become full candidate "STO" and in order that his Soul **can experience it in 5<sup>th</sup> and 6<sup>th</sup> unified densities.**

**It is thus a question of not burning out the stages by believing and by pretending that the ascent will allow human beings to be like brothers united in love, enjoyment, peace... Because those who claim it are not achieved as true human beings yet.**

**The true human being is the one who is completely awakened in his Being, his creator of 6<sup>th</sup> density.**

That's why a small part of the human Souls will ascension (to return towards their original source) and why the major part will choose not to do it.

To conclude, it is important to repeat that **the entities "STS" and "STO" contributes to the balance of the forces in the worlds of matter of 3<sup>rd</sup> density.** It should be so.

However, like at every end of cycle, the forces "STS" in your galaxy managed to keep multiple worlds of duality such as the Earth, in an operating cycle in the "Service to Self".

To rebalance again these worlds of duality of 3<sup>rd</sup> density, every Being who lives in them is brought to make a choice for its evolution in a new cycle which will be :

- That to stay in a comfortable progress "STS" and become an ascensionned entity in 4<sup>th</sup> density of consciousness, predatory in turn of the 3<sup>rd</sup> human density.

Or

- To choose the most difficult path, that of the total karmic liberation to ascension in 6<sup>th</sup> density of consciousness, that is in 5<sup>th</sup> physical density to join the great family of the planners Kadistu or the galactic peoples of the Free Worlds.

**"Service to Self- STS" predatory  
or  
"Service to Others - STO" planner ?**

**It's a choice we must make, now !**
